Professional Services

A home for ambition, opportunity and impact

Our purpose:

To enable our students and colleagues to achieve their best.

Our vision:

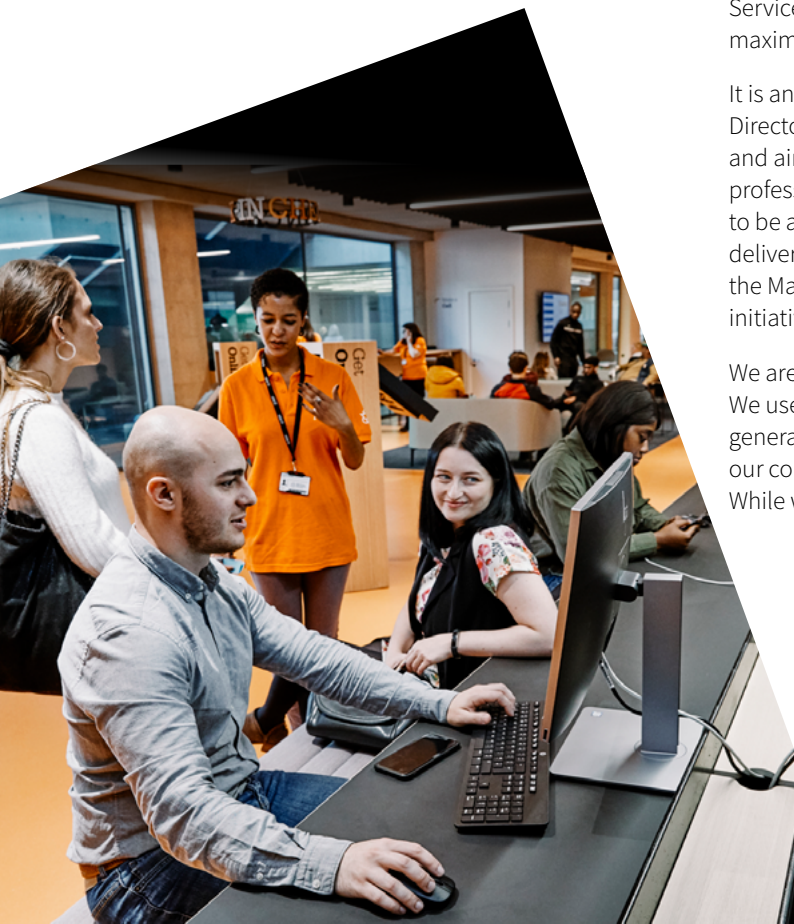

To set the bar for Professional Services within the Higher Education sector, working as one University to drive the strategic agenda and deliver our ambition and goals.

Professional Services (PS) is responsible for the delivery of a wide range of student and academic facing services and the delivery of all business operations, including the ongoing development of the University's estate and infrastructure. We are confident in our ability and single-minded in our focus on achieving the University's goals, providing leadership and expertise to enable students and colleagues to thrive and succeed.

We work as an integrated team, with colleagues aligned with their professional specialism, and largely co-located in collaborative working environments. Expert Business Partners work alongside the leadership of each faculty, providing strategic advice and information to deliver the Faculty's and the University's priorities. Professional Services teams are based in faculties where this location maximises their efficiency and effectiveness.

It is an approach that offers several advantages. Our Directorates have a clear sense of their priorities and aims. Our people have more opportunities for professional progression. And, above all, it enables us to be agile, effective, and efficient, an outlook that has delivered many successes – from the transformation of the Manchester campus to the delivery of exciting new initiatives such as the School of Digital Arts.

We are open and transparent about our performance. We use the wealth of management information generated by our systems, together with feedback from our community, to drive continuous improvement. While we compare ourselves with other universities

to benchmark our performance and identify areas for improvement, we aim to stand out, setting a high bar for Professional Services in the Higher Education Sector.

We look to colleagues at every level to collaborate and contribute – sharing their ideas, making their voices heard, and working together across teams. Our directors meet frequently, while our extended leadership team comes together through away days, regular events and adhoc meetings, supporting our collective approach to planning, strategy and service delivery.

We are confident that our vision to set the bar for Professional Services in the Higher Education Sector is realistic and achievable, and we welcome like-minded colleagues who will help us to excel as a Professional Services organisation and as a university.

Manchester Metropolitan University is proud of its diverse community of employees, students and visitors.

A University with a voice

Staff equity networks

We are advancing equity, diversity and inclusion (EDI) for all of our communities, striving to create a positive culture of inclusion for all.

Athena Swan Charter Bronze Award

We are proud to have received an institutional Athena SWAN Bronze award showing our commitment to gender equality. The charter aims to advance gender equality in HE and specifically seeks to advance the careers in Science, Technology, Engineering and Maths.

In May 2015 the charter was expanded to recognise work undertaken in Arts, Humanities, Social Sciences, Business and Law (AHSSBL), and in professional and support roles, and for trans staff and students.

The charter now recognises work undertaken to address gender equality more broadly, and not just barriers to progression that affect women and makes explicit acknowledgement of intersectionality in its remit.

Race Equality Charter Bronze award

We have been awarded a Bronze Race Equality Charter Award by Advance HE. The award recognises our work to identify and commit to actions we will take to improve the representation, progression and success of Black, Asian and minority ethnic staff and students.
